PARTICIPATING PROJECTS

Managment Taxi(2020)

Desktop application which provides managing of taxis using SQL sever(with store procedures). The app saves data for the employers, cars and clients of the company. Furthermore, application manages the schedule of the taxi so that the busy taxis will not appear available to other costumers. (This project was developed during studies for the practical subject "TI 1 project").

E-Class

This application was developed in the context of the campaign "class schedule management". Was developed to digitize the process of class hours across classrooms. (This project was developed on Asp.Net MVC/SQL-CRUD operation, during the studies for this course "Project TI2").
