Profile

As a Software Developer with four years of experience and a bachelors degree in computer science and software engineering, I became an enthusiastic, self-motivated, reliable, responsible and hard working person. I am a mature team worker and adaptable to all challenging situations. I'm always looking for new challenges and new technologies to learn and develop my professional skills.

Employment History & Experience

- › Java Developer - Elba Technologies JAN 2023 - JUN 2023
 - **Enterprise Application Template** - Participated as a team leader on the configuration of an application template in Spring Boot implementing common features for enterprise applications such as Security, Logging with AOP, Exception handling and more. (*Technology Stack: Java, Maven, Spring Boot, H2Database, PostgreSQL, OpenAPI*)
- › Java Developer - Tech Frame SEP 2021 - DEC 2022
 - **Property Management and Booking System** - Worked as a sole back end developer on a property management application that was responsible for booking and managing properties. (*Technology Stack: Java, Spring Boot, Maven, MySQL, AWS S3 & EC2, Thymeleaf*)
 - **Internet Contract Sales System** - Participated as a back end developer in the development of a contract handling system for triple-play providers to manage contracts and allow third parties to establish contracts on the clients behalf. (*Technology Stack: Java, Spring Boot, Maven, MySQL, AWS S3, EC2, SES, SQS, Thymeleaf*)
 - **Human Resources Software** - Participated as a back-end developer in the creation of a sophisticated HR system tailored to efficiently manage job applicants for companies experiencing a significant influx of candidates for vacant positions. (*Technology Stack: Java, Spring Boot, Maven, PostgreSQL, Microsoft Azure outlook services*)
- › Full Stack Developer - Freelancing 2019 - 2021
 - **Cafeteria Management System** - Developing a Point of Sale (POS) system tailored to a distinctive business model, wherein the clientele comprises company employees endowed with a predetermined monetary balance for acquiring goods at the on-site cafeteria. The application's primary responsibility lies in streamlining product sales and inventory management, alongside precise balance computation for each individual employee-customer. (*Technology Stack: Java, Spring Boot, Maven, MySQL, HTML, CSS, Bootstrap, Java Script, jQuery, AWS EC2*)
 - **Java tutoring** - Held online java courses for students in Switzerland and Kosovo where I explained basic to advanced Java core concepts for students. (*Basic to advanced Java concepts*)
- › Java Developer - Abidat JUN 2018 - OCT 2019
 - **Baggage Handling System for one of the airports in Dubai.** Directly contributed to the development of baggage tracking software in an aviation facility, which played a critical role in enhancing baggage management through real-time tracking, reducing the incidence of lost luggage, and elevating overall passenger satisfaction. (*Technology Stack: Java EE, Ant, MySQL, Sockets*)

Main Skills

- Java Programming
- Spring Framework
- Hibernate
- MySQL, PostgreSQL
- REST
- GIT
- React JS
- DevOps

Other Skills & Experiences

- Team Leading • IoT, MQTT • Microsoft Azure
- Database Design • Hibernate • AOP • Linux
- Project Management • OpenAPI/Swagger
- AWS • Spring Security

Certificates

- Java Training - PTSC 2014
- Java Development - AAB 2021
- Spring & Hibernate- UDEMY 2021
- JavaScript Bootcamp - UDEMY 2021

Languages

- English
- German
- Albanian
