COMPUTER SCIENCE - SKILLS

I have knowledge in programming languages such as Java, JavaScript, MySQL, ReactJS, HTML, CSS, PHP, XML, etc.

CERTIFICATES / TRAINING

Techstitution 4.0, Open Data Kosovo

AUGUST 2020

Web Development, CyberSecurity, Computer Network, Crypto Systems, Software Systems Documentation, Database Systems, University for Business and Technology (UBT)

SEPTEMBER 2020

Workshop (Leadership and Inequality), Green School

SEPTEMBER 2020

Three-week workshop on "Data Science", AAB College

SEPTEMBER 2020

Riinvest Summer School on "Cybersecurity", Riinvest College

SEPTEMBER 2020

Riinvest Summer School on "Digital Entrepreneurship", Riinvest College

SEPTEMBER 2020

Summer School "Business Analysis and Artificial Intelligence", Riinvest College

SEPTEMBER 2020

Workshop (Introduction to machine learning with Python, AAB College

DECEMBER 2020

Creative Centers in Secondary Schools in Kosovo, British College of Sciences by PBCA

JANUARY 2021

International Summer Academy in "Career Orientation", University for Business and Technology (UBT)

JULY 2021

International Summer Academy in IoT & 5G, University for Business and Technology (UBT)

JULY 2021

International Summer Academy in "Digital Reality", University for Business and Technology (UBT)

JULY 2021

Summer of Code , University for Business and Technology (UBT)

AUGUST 2021

Microsoft Office Specialist, University for Business and Technology (UBT), Certiadria

MAY 2022

UBT Global Fest - International Summer Academy of SMART CHAIN, University for Bussines and Technology (UBT)

JULY 2022

UBT Global Fest - International Summer Academy of Programming the Future, University for Bussines and Technology (UBT)

JULY 2023

Full Stack Developer, Udemy

EXTRA-CURRICULAR ACTIVITIES

Regional Service-Learning Award, TOKA, Pozharan, Viti

APRIL 2021 – JUNE 2021

As a student, I was the co-coordinator of project. I wrote the final project, I created the brochures, I created the video, I coordinated the activities, I conducted a survey in the school. All this was done in the framework of the project for educational volunteerism with the theme "Prevention of alcohol and tobacco consumption among students and young people".

IT Support - 11th International Conference, UBT International Conference, Pristina

OCTOBER 2022

Reporting cases of bullying and harassment in school - Digital Solution, "Regional Service Learning Award" 2023

OCTOBER 2022 – MAY 2023

In this project, I was engaged as an external co-author in the high school "Kongresi i Manastirit", where I offered simplified technological solutions for reporting cases of bullying in schools in real time.

Where I proposed creating QR codes and placing them in certain areas of the school. Then that QR code is connected to a form where students can report if they have seen cases of harassment and even upload images/videos. Then every report that is made is notified to the school directorate by email in real time, in which case they have the opportunity to act in time.

I went to this project at the invitation of the project mentor to offer digital solutions.

The project was carried out in the framework of the "Regional Service Learning Award" 2023.

It is worth noting that among 97 projects in total, this project went to the final where 19 finalists from 5 countries (Kosovo, Albania, Bosnia and Herzegovina, Romania and Slovakia) participated. While it was selected as the best project in the category of schools in Kosovo.

External associate for Information Technology issues, High School "Kongresi i Manastirit", Pozharan, Viti

SEPTEMBER 2023 – PRESENT

The high school has received a project within the framework of the Kosovo Education Center - KEC, this project called "Action Against Discrimination for All - AADA". My contribution has been assistance in the areas of information technology and communication, mainly I have offered practical digital solutions for reporting cases of bullying. Where the students had the opportunity to scan a QR code and then fill out the form to report cases of bullying. This has helped the cases to be reported on time, and the response to be quick and accurate.

IT Support - 12th International Conference, UBT International Conference, Pristina

OCTOBER 2023

In this conference, I contributed to the technical part, to the conduct of the conference and the coordination of technical aspects.

Bebras Computing Challenge - Volunteer, SHPIK, Prishtina

DECEMBER 2023

Happy to be a volunteer to administer the Bebras Computing Challenge. It was organized for the first time in Kosovo, a wonderful organization from SHPIK.

This challenge tests computing, algorithmic thinking and problem solving!

My role has been in the coordination and administration of the testing process.

Bebras Computing Challenge was held on December 9, 2023 at the high school "Gjin Gazulli" in Prishtina, Kosovo

HOBBIES

Hiking, Walking, Football
