EXPERIENCE & AWARDS

Front-end Developer

2021

Planet Tree

Planet tree, is a website that I developed during my lessons with front-end development in digital school. I used all front-end tools provided, HTML CSS and JS. This project insured me the best project in the class and ASEF. The project involves about planting tree as to make the world better with simple donating from and an informative website why we should plant trees.

ASEF

Albanain Science and Engennering Fair

2023 - 2024

A competition which happens once a year, and I had the honor to be selected one of the top students of my school to go to Albania and take part in a Computer Science competition, In 2023 I presented Planet Tree, and In 2024 I showcased Vrfinity which is a project made in a hackathon for the limit of 48 hours. Out of 70 projects in the Web Design category both projects 1st place each year.

STEM Olympiad

2024

International STEM Olympiad

STEM Olympiad is a international competition which evolves around sciences, and technology. I took part in this competition as representative for my school in the coding category. The coding category included unified math and JavaScript solving problems. I was competing with the whole world so I can get a rank for which I can represent Kosovo. In the first test i got 27/30 problems right and in the 2nd or the final I got 29/30 which places me 12/80 grade level in the world. Which for now I'm eligible to go to Netherlands and compete for first place.

Dekor Drilon

2024

Dekor Drilon - Client Company

Successfully developed and launched a comprehensive online furniture website for a client, enhancing their digital footprint and customer engagement. Leveraged modern web development technologies to create an intuitive, visually appealing, and user-friendly informative website.
