Profile

I am a hardworking and friendly individual with a strong ability to collaborate effectively with others. I pride myself on being able to adapt to new environments quickly and bring a positive attitude to every team I join. With experience gained through various projects, I have developed a keen eye for detail and a dedication to delivering high-quality work. I am always eager to learn and grow, and I am confident in my ability to contribute to any workplace.

Education

Computer Science, UNI-Universum International College

I am currently studying Computer Science at UNI-Universum International College. As a hardworking student dedicated to achieving good grades, I am committed to my studies and passionate about continuous learning and development in the field of technology.

Skills

IT — Proficient

Operating Systems: Proficient in using both Windows and Mac operating systems.

Troubleshooting: Skilled in diagnosing and fixing computer issues, ensuring systems run smoothly and efficiently.

Technical Support: Experienced in providing technical support, resolving software and hardware problems promptly.

Front-End — Proficient

I have a solid understanding of front-end development, with experience in HTML5, CSS3, JavaScript, jQuery, Bootstrap, and Sass. These skills allow me to create responsive, user-friendly web pages and applications. I am passionate about designing and building clean, efficient, and visually appealing interfaces.

Back-End — Proficient

I have knowledge and experience in back-end development using PHP and MySQL. These skills enable me to build robust and efficient server-side applications and manage databases effectively. I am dedicated to creating secure and scalable solutions that support the overall functionality of web projects.

About Me

I take pride in writing clean, understandable code and have a knack for solving problems efficiently. My approach to coding emphasizes clarity and maintainability, ensuring that my work is not only functional but also easy for others to read and build upon. I enjoy tackling challenges and finding innovative solutions to complex issues, always striving to improve my skills and contribute to successful projects.

Courses

Web Development, *Probit Academy*

Prishtine

At ProBit Academy, I gained comprehensive knowledge in HTML5, CSS, JavaScript, jQuery, Bootstrap, Sass, PHP, and MySQL. This course provided me with a strong foundation in both front-end and back-end development, enhancing my skills and preparing me for real-world web development challenges.
