

## EDUCATION

### UNIVERSITY OF PRISHTINA

Faculty of Electrical and Computer Engineering

2021 - Present

**Major: Computer and Software Engineering**

## SUMMARY

As an undergraduate Computer and Software Engineering student who has finished my third year of study, I have a solid academic foundation and a deep passion for technology. Eager to launch my career as a PHP Developer Intern, I am enthusiastic about applying my knowledge of web development, core PHP, and MVC frameworks. I look forward to contributing to innovative projects and honing my skills in a dynamic, collaborative environment.

## PROFESSIONAL EXPERIENCE

### TEB Sh.A

May 2024 – Present

Network and Security Systems Intern

- Hands-on experience in IP subnetting, routing, connectivity, switching, and security.
- Proficient in designing and implementing IP subnets, optimizing routing protocols, and managing network switches.
- Skilled in implementing security measures such as firewalls and intrusion detection systems to protect network infrastructure.

## SOCIAL SKILLS AND COMPETENCIES

- Strong communication, creative thinking, and critical thinking skills
- Excellent problem-solving abilities with attention to detail
- Good collaboration and interpersonal skills

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, C++, PHP, JavaScript

**Databases:** MySQL, PostgreSQL, MongoDB

**Web Development:** Core PHP, MVC Framework, Laravel, JavaScript, React, HTML5, CSS3

**Object-Oriented Programming:** Proficient in OOP concepts and design patterns

**Quality Assurance:** Manual and automated testing strategies, bug tracking, software quality management

## COURSES

### Quality Assurance Manual

Beetroot Academy 2023

Completed a comprehensive course on quality assurance methodologies and techniques, covering manual and automated testing strategies, bug tracking, and software quality management practices.

### Agile basics & SCRUM foundations

EX-CITE 2024

Completed Agile Basics & SCRUM Foundations training, demonstrating proficiency in agile principles, SCRUM framework implementation, and collaborative project management practices essential for delivering successful software solutions.
