LIS RATKOCERI

BI DEVELOPER

ABOUT

Extremely passionate about data and software development, Lis brings a strong foundation in relational database management systems (RDBMS) and business intelligence (BI) applications.

His experience includes creating dashboards, reports, visualizations, and complex queries for both Meridian Express, SPAR, and BPB Bank.

Additionally, Lis contributed to the CINX Revit Add-in project by designing and implementing queries, views, stored procedures, functions, and triggers.

His basic knowledge extends to object-oriented programming languages such as C# .NET Core and Java.
