ABOUT ME

I am a young man with great ambitions and a strong desire to learn. I thrive on exploring new ideas and acquiring knowledge, always seeking opportunities to grow personally and professionally. My curiosity drives me to push boundaries and embrace challenges, making me adaptable and resourceful in various situations.

As a software developer, I have extensive experience in designing and developing web applications using a wide range of advanced technologies. I specialize in creating dynamic websites and modern user interfaces using **HTML**, **CSS**, **JavaScript**, and popular frameworks such as **React.js** and **Vue.js**. My in-depth experience includes building feature-rich applications and integrating them with backend systems developed in **Laravel** and **Python**.

I possess advanced knowledge in **MySQL** and **SQL** for managing and optimizing databases, focusing on the performance and scalability of applications. Through these skills, I have completed projects that enhance user experience and process efficiency, ensuring applications are stable, secure, and easy to maintain.

Successful projects, such as the development of the "Kamenica Summer Fest" website and other professional engagements, have equipped me with experience in all phases of the software development lifecycle. My skills also include the use of **Agile** methodologies, managing projects in small teams, and optimizing the performance of web applications.

EDUCATION AND TRAINING

[2021 – 2024]

Bachelor of Science in Computer Science - Software Engineering and Web Development

Kadri Zeka Public University, Gjilan, Kosovo   https://uni-gjilan.net/en/

City: Gjilan | **Country:** Kosovo |

During my studies in **Computer Science - Software Engineering and Web Development**, I gained a solid foundation in both front-end and back-end technologies, as well as software engineering principles. This program allowed me to explore key areas such as:

- **Web Development**: I developed advanced skills in **HTML**, **CSS**, and **JavaScript**, enabling me to build modern, responsive, and interactive websites. This included a focus on user experience (UX) and interface design (UI), with an emphasis on creating user-friendly and aesthetically pleasing websites.
- **Frameworks**: I specialized in using frameworks like **Vue.js** for building interactive, single-page applications (SPAs) and **Laravel** for developing backend systems. My experience with these technologies allowed me to craft dynamic, scalable, and maintainable web applications.
- **Programming Languages**: I enhanced my proficiency in **Python**, **Java**, and **C++**, applying these languages to both web development and software engineering tasks. Python and Java were essential for server-side development, while C++ equipped me with problem-solving skills for more complex algorithms and system optimization.

- **Database Management**: I gained practical experience in **SQL** and **MySQL**, focusing on designing efficient database schemas, optimizing queries, and ensuring data integrity in web applications.
- **Software Engineering Principles**: I applied Agile methodologies to project management, learning to work in collaborative, fast-paced environments where projects were delivered on time and met client specifications. This included team-based development and iteration cycles focused on continuous improvement.

[2018 – 2021]   **Natural Sciences**

"Ismail Qemali" High School

City: Kamenicë | **Country:** Kosovo |

[2024 – 2024]   **UI/UX**

Outkos Academy   https://outkos.academy/AllCourses

City: Prishtinë | **Country:** Kosovo |

[2024 – 2024]   **Introduction to SQL**

Sololearn

WORK EXPERIENCE

[2024 – 2024]   **IT Intern**

Municipality of Kamenica

City: Kamenicë | **Country:** Kosovo

During my internship at the Municipality of Kamenica, I provided technical support and assistance in various IT-related tasks. My responsibilities included:

- **Technical Support**: Assisted municipal staff with troubleshooting hardware and software issues, ensuring smooth day-to-day operations.
- **Website Development**: Played a key role in the design and implementation of the "Kamenica Summer Fest" website using WordPress, focusing on enhancing user experience and optimizing content.
- **System Maintenance**: Contributed to the maintenance of existing IT systems, helping to improve the efficiency and security of data management.
- **Collaboration**: Worked closely with the IT team and other departments to identify technological needs and implement effective solutions.
- **Project Management**: Gained experience in project management methodologies, including Agile, to ensure timely delivery of projects and adherence to budget constraints.

DIGITAL SKILLS

My Digital Skills

Microsoft Office package: Microsoft Word, Excel, PowerPoint, Access | C++ | Python | Multiple PHP (Laravel) Projects | WordPress | MySQL | MATLAB | Experience with PHP, SQL, HTML, CSS, JavaScript

PROJECTS

[2024 – 2024]   **Kamenica Summer Fest**

During my internship at the Municipality of Kamenica, I developed and designed the website for the "Kamenica Summer Fest," an annual event that promotes culture and various activities in the municipality. My work included:

- **Platform**: Utilized **WordPress** as the development platform, making it easy to manage and adapt to the organization's needs.
- **Design**: Created an attractive and modern design that reflects the festive atmosphere of the event, with a strong focus on usability and easy navigation.

- **Content**: Prepared and optimized representative content, including information about activities, artists, and event schedules, ensuring the information was clear and easily accessible.
- **Functionality**: Implemented interactive features such as registration forms for participants and options for real-time tracking of event activities, enhancing user engagement.

This experience allowed me to develop my technical skills in web development and gain a deeper understanding of project management processes in a practical context. The website for "Kamenica Summer Fest" contributed to the success of the event by providing an informative and interactive platform for visitors and participants.

HOBBIES AND INTERESTS

Football

I have been an active football player for over a decade, which has not only been a passion of mine but also an essential part of my life. Playing football has taught me the values of teamwork, discipline, and perseverance. Throughout the years, I have participated in various local leagues and tournaments, honing my skills in both offensive and defensive play.

My experience on the field has enhanced my physical fitness, strategic thinking, and ability to perform under pressure. I enjoy the camaraderie that comes with being part of a team, working together towards a common goal, and celebrating our victories. Football is not just a sport for me; it is a way to stay connected with my community, maintain a healthy lifestyle, and challenge myself both physically and mentally.

Gaming

I am a passionate gaming enthusiast who enjoys exploring various video game genres, from action and adventure to strategy and role-playing games. Gaming serves as a creative outlet for me, allowing me to immerse myself in different worlds and narratives while enhancing my problem-solving skills and strategic thinking.

I actively engage in both single-player and multiplayer experiences, which not only provide entertainment but also foster connections with friends and fellow gamers around the world. Through gaming, I have developed teamwork and communication skills by collaborating with others to achieve common objectives in competitive and cooperative settings.

Additionally, I keep up with the latest trends in the gaming industry, exploring new releases and participating in gaming communities. This hobby allows me to relax, challenge myself, and experience diverse storytelling through interactive media.
