PROJECT

Terminify – Appointments Management (CRM)

SaaS (Software as a Service) application tailored for small and medium-sized businesses that offer services with appointments. Platform with feature like multi-tenant, secure payment, employee and customer management, tracking | auditing, analytics, backup ...

Mtech Studio – Business Web

Built a modern and responsive landing page using Tailwind CSS. Optimized the page for SEO and faster load times.

Discoveryoptics – Landing Page (Startup)

Designed and implemented a landing page for Discoveryoptics to showcase their products and services.

Invoice App Management

Application to streamline invoice creation and management for businesses, saves and organize orders, generate professional invoices, and export data.

Association Istanbul

Dynamic website for organizations, featuring detailed institute descriptions, a blog, donation system, contact forms, and an online application platform to enhance engagement and streamline operations.

Conference Management

Developed a user-friendly application for managing conferences, including speaker talks, attendees, and venues, with API integration for seamless system connectivity.

Employee Management App

Designed a multi-tenant SaaS Employee Management System enabling users to manage multiple companies within a centralized database, ensuring data isolation, security, and efficient access control. The platform streamlines tasks such as employee onboarding, role assignment, payroll tracking, and performance evaluation while reducing infrastructure complexity.

E-Ticket

Developed a comprehensive e-ticketing platform with features like secure payments, event categorization, Google Map integration, and advanced user management. The system includes live chat, SEO optimization, visitor tracking, and a robust admin panel for seamless event ticketing worldwide.

Forum | Voting APP

Developed a secure and user-friendly Voting App enabling efficient online voting from any device, with advanced security measures to ensure accurate and protected vote counting.
