

# BLINERA HAJDARI

## QA Intern

### SUMMARY

Graduated in Computer Engineering, with a deep interest in software development and application testing. I have experience in project development and am eager to develop my skills in manual and automated software testing. I aim to contribute to a QA team and learn as much as possible from the industry's best practices.

### CONTACT

✉ [Blinerehajdari@gmail.com](mailto:Blinerehajdari@gmail.com)

### LANGUAGES

Albanian: Native, English: B1+

German: A1

### PROGRAMMING LANGUAGES

Python, PHP, C++, JAVA, HTML, CSS, Bootstrap, JavaScript, React.js, Node.js, Next.js.  
Database: MySQL, MongoDB.

### SKILLS

- Manual testing and basic knowledge of automated testing
- Basic knowledge of API testing
- Debugging and functionality verification
- Strong communication and teamwork skills
- Task organization and time management
- Analytical thinking and problem-solving abilities

### EDUCATION

UP – Faculty of Electrical and Computer Engineering

Department - Computer Engineering

Oct 2020 – Jan 2025

### EXPERIENCE

#### Programming Instructor - Logiscool Drenas

Mar 2025 – now

Taught programming using visual and mix code (blocks + Python). Guided students in building, testing, and debugging projects using algorithmic logic and basic QA practices.

#### IT Intern – KEDS

Sep 2023 – Oct 2023.

Observed daily IT operations in areas such as cybersecurity, networking, and help desk. Gained insight into how technical issues are identified and addressed, although I did not perform hands-on tasks myself.

#### Software Developer Intern - KEDS

May 2023 - Jun 2023.

Observed the software development process in an internal project and completed assigned tasks related to the project's database using SQL, as part of technical support.

### TRAININGS

#### Big Data Analyst / Cloud Computing

Covered basics of Hadoop, Spark, cloud platforms (AWS/Azure), data processing with SQL and Python libraries.

#### Machine Learning

Focused on supervised/unsupervised learning, model evaluation, and practical implementation using Python libraries.

#### Programming in Python

Python, Django, Project Management, Soft Skills

#### Tech - Development-Tech-Employment

HTML, CSS, Bootstrap, JavaScript.

#### Digital Transformation and AI Executive Program

Digital Transformation, Artificial Intelligence, Finance, Cyber Security, Soft Skills, HTML, CSS, JavaScript

#### KEDS Academy Leadership Program

Digital Transformation and Data Science, Cyber Security, Business Intelligence, Agile Leadership, Project Management
