## ABOUT ME

---

Passionate second-year IT student with strong knowledge in frontend technologies including HTML, CSS, JavaScript, and Bootstrap. Experienced in building interactive web applications using Django and Flask. Comfortable working in teams, using Git for version control, and currently expanding knowledge in Vue.js. Eager to contribute to real-world projects and grow within a collaborative development team.

## EXPERIENCE

---

### Frontend Developer Intern, Stree LLC

June 2025 –

- *Collaborating with a professional team on building software projects*
- Using Vue.js and Ionic to develop cross-platform applications

### Software Engineering Fellow, Headstarter AI

July 2024 – Oct 2024

- *Collaborated with a team on software projects and gained exposure to full-stack workflows*
- Used Next.js and Firebase to develop applications with real-life impact
