FullStack Intern

Web Developer

During my internship at Tectigon Academy, I worked as a Full Stack Developer, where I gained hands-on experience in web development using HTML, CSS, JavaScript, PHP, and React.js.

I successfully completed a full project that included both frontend and backend development, demonstrating strong technical skills and the ability to work through real-world challenges.

This experience helped me strengthen my problem-solving abilities, teamwork, and understanding of the complete web development cycle.
