## PROJECTS

### ● **Project Management - Java Spring boot(MVC, Hibernate, Thymeleaf, Security, JPA)**

<https://github.com/ValtonSherifi/project-management-Spring-Boot>

This project handles two crucial entities for the application purpose, the

Project Entity, and the Employee Entity. Thus, by maintaining the employees and projects and having a relationship between these two we have additional tables to help the purpose of perceiving the flow of the project and the involvement of the employees in projects.

### ● **Fleet App - Java Spring Boot**

<https://github.com/ValtonSherifi/fleetapp--Spring-boot>

This fleet app management project has many correlated entities, with one purpose and two main subjects, the employee which has to deliver

the order, ordered by a user.

### ● **Blog - Laravel**

<https://github.com/ValtonSherifi/blog-laravel>

Blog web app allows people to register/login and post blogs. Posts/Blogs

of all the users are in the Blog section, ordered by time.

Users can add, edit, delete only their own posts. In the Profiles section we have a table with all users, and by clicking on their name we can see

only the particular user's posts.

## DIGITAL SKILLS

### ● **Skills**

Java, Spring Boot(MVC, AOP, REST, Thymeleaf), Python, PHP, Laravel, SQL, MongoDB, HTML 5, CSS, JavaScript.
