me /

My name is Agon and I would like to apply for the Enterprise Java and Mobile Development course. I'm currently a final year student in computer and engineering science and my career goal is to provide development services.

Skilled in object-oriented programming using class-based computer programming languages. Experienced in encapsulating data, functions and object compositions application programming languages. Java has been the programming language I have learned since the beginning of my career as a software developer, I would like to learn more about this language to be able to create different applications, thanking you for the opportunity.

I am experienced in agile development principles to ensure maximum client satisfaction and continuous delivery valuable software.

Experienced in fixing computer bugs to ensure proper functioning of software applications and websites. In such cases, also a good searcher for possible solutions.

I always strive to achieve the highest standard possible, at any given task and in any situation. Now I am looking for an opportunity to further develop my programming skills and build a career in programming.

education /

Computer and Engineering Science – UBT, Prishtinë / Final Year

Computerized Automation and Robotics – FIEK, Prishtinë / Second Year

High School – Haxhi Zeka, Istog

skills /

I am able to write code in various programming languages, such as Java, C# (Asp NET Web API), JavaScript, TypeScript, React & Next JS, PHP. Experienced in using databases, especially SQL and basic GIT commands.

books /

- **Introduction to Java Programming** - Y.Daniel Liang
- **An Introduction to Object Oriented Programming** - C.Thomas Wu

Soft skills /

- Attention to detail
- Communication
- Problem solving
- Motivation
