

Rinor Gllareva

SUMMARY

Greetings! I'm Rinor, a Computer Science and Engineering student specializing in Software Engineering at UBT University. Ambitious, career-focused job seeker, anxious to obtain an entry-level Software Developer position to help launch career while achieving company goals.

EXPERIENCE

VisualCore - Software Engineer Developer

Prishtine, Kosovo • 01/2023 - 05/2023

- Collaborated with cross-functional teams to define design specifications and feature releases, ensuring alignment with user requirements.
- Resolved technical issues in software development projects and provided production environment support for timely issue resolution.
- Designed and implemented user-friendly software interfaces, enhancing performance and incorporating new features.
- Ensured compliance with security policies and best practices throughout the software development lifecycle while integrating third-party APIs into existing application architectures.

PROJECTS

I've tackled exciting projects like:

- **Profile Matching for Students:** Created a web app to help students find the best-fit universities based on their profiles, simplifying the selection process.
- **SpotifyXShazam:** Developed a music app combining Spotify and Shazam features for song identification and personalized playlists.
- **Car Catalog:** Designed a user-friendly web app for car enthusiasts to browse, search, and compare cars.
- **Travel Agency:** Built a comprehensive web platform for a travel agency, offering travel booking and itinerary management.

In the future, I aim to:

- Create a **scheduling and management system** akin to 7shifts to optimize employee shifts.
- Develop a **government management** platform for SMEs to access subsidies, track business activity, and showcase products.

With a deep passion for software engineering, I'm eager to collaborate on innovative projects and contribute to meaningful change in the field. Let's shape the future of

SKILLS

- Project Documentation
- Software Design
- Advanced Computer Programming
- Software Applications
- Software Development Life Cycle (SDLC)
- Team Collaboration
- Stakeholder Communication
- Microsoft ASP.NET
- Fluent in Java, C#, React
- Complex Problem Solving
- Code Development
- Requirements Documentation
- Technical Documentation

EDUCATION AND TRAINING

Bachelor of Science: Computer Science And Engineering

UBT

Prishtine • 08/2020

High School Diploma
Xhevdet Doda

Prishtine • 07/2020

software development together.

ACTIVITIES AND HONORS

- Soccer
- Volleyball
