Professional Summary: As a dedicated Computer Engineering student with practical experience in technology education for children and specialized training in Node.js, Express.js, MongoDB, and Python programming, I am eager to contribute my skills to innovative projects. Passionate about leveraging technology for equitable development, I bring a strong foundation in computer engineering and a commitment to continuous learning.

Education:

- Bachelor of Science in Computer Engineering
 - University Hasan Prishtina, Faculty of Electrical and Computer Engineering, 2019/2020 - Present

Work Experience:

- **Technology Teacher**
 - Hello Academy of Education, Gjilan
 - October 2023 - Present
 - Design and deliver technology education sessions for children.
 - Foster a positive learning environment to enhance students' understanding of technology concepts.

Training:

- **"Amplifying Local Voices for Equitable Development" Project**
 - November 2022 - January 2023
 - Completed training sessions on Node.js, Express.js, and MongoDB as part of a project funded by the UK Government.
- **"ICT & Digital Skills Training for Kosovo's Growth Project"**
 - September 2023 - January 2024
 - Successfully completed the Python programming module within the training program.

Skills:

- Programming Languages: Python, PHP, C++, C#, Java
- Web Technologies: Node.js, Express.js
- Databases: Access MongoDB, MySQL

Languages:

- English: Fluent
- Turkish: Fluent

Additional Information:

- Participated in the "Amplifying Local Voices for Equitable Development" project, contributing to the use of technology for community growth.
- Actively engaged in ongoing professional development to stay current with industry trends and advancements.
